Website overview: Since 1996 the Study Guides and Strategies Website has been researched, authored, maintained and supported as an international, learner-centric, educational public service. Permission is granted to freely copy, adapt, and distribute individual Study Guides in print format in non-commercial educational settings that benefit learners.

Study Guides and Strategies

Contains the electronic versions of 80 books previously published in hard copy as part of the Country Studies Series by the Federal Research Division. Intended for a general audience, books in the series present a description and analysis of the historical setting and the social, economic, political, and national security systems and institutions of select countries throughout the world.

About this Collection | Country Studies | Digital

Our study of hydraulic fracturing and its potential impact on drinking water resources: We studied the relationship between hydraulic fracturing for oil and natural gas and drinking water resources. The study includes a review of published literature, analysis of existing data, scenario evaluation and modeling, laboratory studies, and case studies.
