Welcome. Mathematics is an amazing and beautiful intellectual creation, one of the human race's deepest endeavors. The world around us, and the future world we are creating, is woven through with mathematics â€” from the symmetry groups of Navajo weavings, to the airflow around a flapping birdâ€™s wing, to the security of global computer networks.

The area of study known as the history of mathematics is primarily an investigation into the origin of discoveries in mathematics and, to a lesser extent, an investigation into the mathematical methods and notation of the past. Before the modern age and the worldwide spread of knowledge, written examples of new mathematical developments have come to light only in a few locales.
