Best Sellers in Financial Auditing - amazon.com

An audit is a systematic and independent examination of books, accounts, statutory records, documents and vouchers of an organization to ascertain how far the financial statements as well as non-financial disclosures present a true and fair view of the concern. It also attempts to ensure that the books of accounts are properly maintained by the concern as required by law.

Guidelines and Audits Slaughter Plant Guidelines and Audits Since 1991, the AMI Foundation has encouraged its members to subscribe to voluntary animal welfare guidelines and to embrace auditing programs and they have done so. The meat industry was the first sector in animal agriculture to develop such guidelines and to begin self-audit programs.
