Individualism is the moral stance, political philosophy, ideology, or social outlook that emphasizes the moral worth of the individual. Individualists promote the exercise of one's goals and desires and so value independence and self-reliance and advocate that interests of the individual should achieve precedence over the state or a social group, while opposing external interference upon one's ...

Origins and historical perspectives. The German sociologist TÄ¶nnies described an early model of collectivism and individualism using the terms Gemeinschaft (community) and Gesellschaft (society). Gemeinschaft relationships, in which communalism is prioritized, were thought to be characteristic of small, rural village communities. An anthropologist, Redfield (1941) echoed this notion in work ...
