window was wide open. Through it came the birds, hitting first the ceiling and the walls, then swerving in
mid-flight and turning to the children in their beds. â€œItâ€™s all right, Iâ€™m here,â€• shouted Nat, and the
children flung themselves, screaming, upon him, while in the darkness the birds rose and dived, and came for
him again.

Beyond early bird or night owl: Expert says there are 4 types of sleepers. And I discovered that there were actually four different chronotypes: the early one, which I'm calling the lion; the middle, which is a bear; the late evening people, which are wolves; and then there are the insomniacs, which are dolphins.
